

# Volunteer Re-Entry Interest Survey

We will soon announce a phased plan to re-initiate volunteer service at Arkansas Children's in some capacity. Our team at Arkansas Children's has stretched and adjusted to meet new needs of our teams, patients and families, while continuing to operate with our same core commitment to safety and excellence.

We realize that although this is the right time for us to re-initiate the program in some capacity, it might not be the right time for you. Our encouragement to you is that you make the most informed decision for yourself on when and how you wish to return to volunteer service. Regardless, your traditional role will be held for you and ready when our program returns to its original form.

On the survey below, there are questions about you, your comfort level and your areas of interest in these new, temporary roles of volunteer service. We ask that you complete the survey by May 17th. We will be back in touch that week. We are so grateful for your friendship and support of our patients, families and teams.

1. How old are you? (Per the Center for Disease Control - CDC - COVID-19 is a new disease and there is limited information regarding risk factors. Based on currently available information and clinical expertise, adults over the age of 65 and people of any age who have serious underlying medical conditions might be at higher risk for severe illness from COVID-19.)
