## CMS offers new provider resource on regulatory waivers and rules

The Centers for Medicare & Medicaid Services' Office of Minority Health has released [Rural Crosswalk: CMS Flexibilities to Fight COVID-19](#). This new resource documents COVID-19-related waivers and flexibilities issued by CMS that affect rural health clinics, federally qualified health centers, critical access hospitals, rural hospitals generally and long-term care facilities. The resource describes the significance of each provision for these rural providers and facilities.

The Crosswalk is divided into six sections for easy navigation:

- CMS hospitals without walls.
- Patients over paperwork.
- Payment.
- Telehealth.
- Workforce.
- Additional guidance.

The Rural Crosswalk is intended to boost providers' understanding of the many CMS regulatory waivers and new rules that have been issued in response to COVID-19.
