## **Sterilaser Germicidal UV-C Room Unit**

***Removes 99.5% of all harmful bacteria, fungi, and viruses (including COVID-19) will be gone in minutes. Easy to use and rugged construction makes this unit perfect for classrooms, cafeterias, gyms, locker rooms, bathrooms, and office space.***

### ***HOW DOES UV WORK?***

***The germicidal range of UV light is known as UV-C. This range of UV light changes the structure of DNA and RNA microorganisms, rendering them incapable of replicating. A cell that can't reproduce is dead. Dead cells are unable to multiply and cause infections in a host. In simpler terms, UV-C light breaks up the DNA pattern in the cell. Direct UV-C light will kill any microorganism, whether in the air or on a surface, within 20 feet.***

## UV-C GERMICIDAL ROOM UNIT FACTS

- Price of \$2,495.00 per unit
- 49 inches tall, 10 inches wide & 10 pounds
- Controlled by remote control with timer.
- The UV-C light this unit delivers is 8 to 10 times more POTENT than what's needed to kill the strongest virus.
- Our UV-C lamps have a unique Teflon coating that increases safety & does not block UV rays.

## FAQ

- What is the hour rating on the lamps?
