

Empowering Nurses with Mobile Technology

Hospitals are adopting mobile computers that transform nurse call systems, raise productivity, and improve patient outcomes.

Here's What's Driving Adoption of Mobile Devices

REDUCED COSTS More than half of hospitals surveyed report that mobile devices reduce the cost of patient care.¹

IMPROVED CARE Nearly three-quarters of hospitals say mobile technology improves the quality of patient care.¹

REDUCED ERRORS Almost two-thirds of nurses agree that using mobile devices reduces medication administration errors.¹

The Benefits of Using Mobile Devices for Real-Time Collaboration

Better Response Time

Reduced Alarm Fatigue

Fewer Errors

Increased Patient Satisfaction

Higher Efficiency

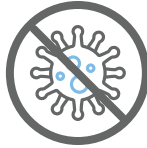

Improved Nurse Job Satisfaction

What Makes Zebra Mobile Computers Ready for Healthcare?

Disinfectant Ready for Frequent Cleaning

Designed to Eliminate Areas Where Germs Can Hide

Medical-Grade Housing Supports 30+ Chemicals

ENSURE SECURE MESSAGING

Zebra mobile computers enable secure communication, eliminating the need to use personal smartphones that create security risks for hospitals.

REDUCE ALARM FATIGUE

Zebra mobile computer solutions centralize and prioritize alarms from multiple medical devices, reducing stress on nurses and staff.

IMPROVE CLINICAL WORKFLOWS

Zebra mobile computers enable nurses to access information and contact colleagues from the patient's bedside to get more done in less time.

70%

According to the Joint Commission, 70% of medical errors can be attributed to communication breakdowns.²

97%

A Zebra study reveals that 97% of hospitals have already equipped nurses with mobile devices or plan to do so by 2022.¹

77%

According to Zebra's 2022 Hospital Vision Study, 77% of patients approve of clinicians using mobile devices in their care.¹

Ideacom Mid-America is the Midwest's Most Trusted Technology Solution Provider
