

Vitalacy Patient Safety Platform

Hand Hygiene Feature

Continuously capture compliance data so you can get back to focusing on patient care. Increased hand washing can reduce infection risk to your staff and patients with hand hygiene coaching at point-of-care.

- Tracks both compliance and non-compliance
- Duration reminders
- Wash reminders

Decrease
Risk of
HAI

Dispenser Use Feature

Make your dispensers smarter. Small lightweight sensors adhere to manual and automatic dispensers and monitor dispense events for soap and sanitizer.

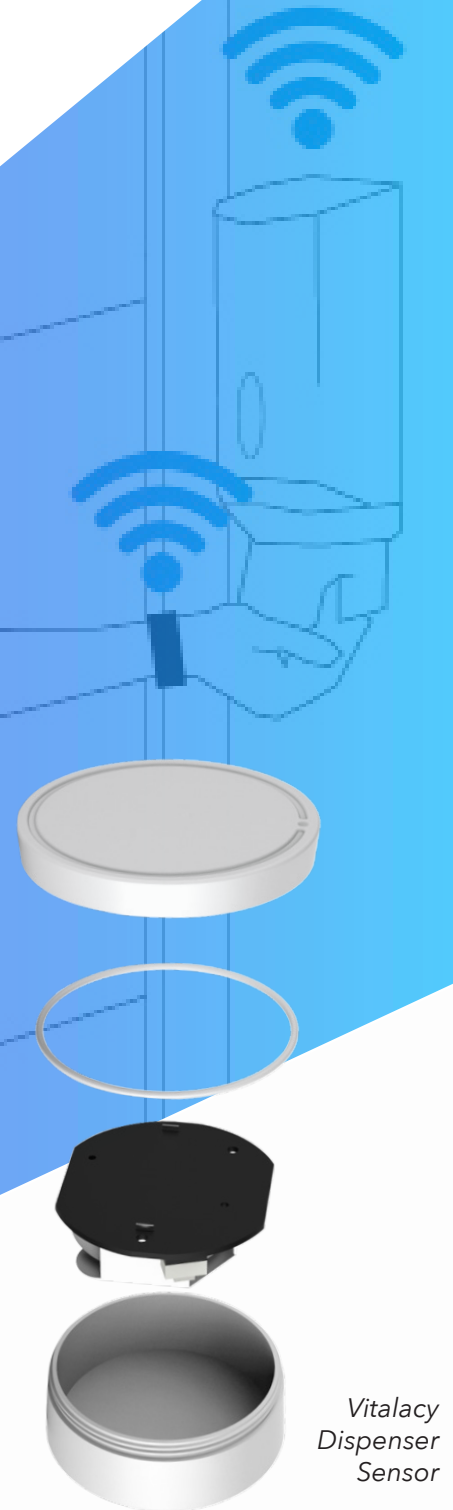

Monitor each dispenser by:

- Activity Level
- Soap vs Sanitizer
- Filter by compliance
- Filter by day or hour
- Filter by location
