

A Message from the IHA PAC Committee

Health care is changing ... and hospitals and health systems are transforming to meet the evolving needs of our patients and communities. Hospitals are located in 90 of the 99 counties in our state. We're often the largest employer in the community. We are pillars of those communities, and we are key stakeholders.

The blue and white hospital "H" carries the promise of help, hope and healing. While the hospital of the future continues to extend that promise, it may do so in significantly new ways. That means our hospitals and health systems must advance, too, in order to sustain access to high quality health care for Iowans.

With 118 hospitals and several health systems, we have the opportunity to profoundly influence health policy in Iowa. Our role in politics can help enhance the delivery of health care and the outcomes for our patients.

To do this, we need to make the field more unified and increase our visibility at the Capitol. We must be politically active and broaden our base of supporters. This is no time for hospital leaders to stand on the sidelines. The 2022 midterm election cycle will soon be underway. **The IHA PAC's goal for 2022 is to raise \$125,000.**

2022 PAC Committee:

Jason Harrington, Chair
